

Serial No. 09/933,567

**REMARKS**

The Applicants and the undersigned thank Examiner Robinson for the careful review of this application. Claims 1-72 were subject to a restriction requirement imposed by the Examiner on June 17, 2005. Claims 1, 5, 9, 13, 14, 20, 21, 22, 39, 48, 57, 63, and 72 are the independent claims. The Applicants have elected Group I with traverse.

In the Official Action, the Examiner grouped the claims as follows:

Groups	Relevant Claims
Group I	1-13, 20, 63-72
Group II	14-19
Group III	21
Group IV	22-62

**Request for Reconsideration of the Election of Restriction Requirement**

In the Restriction Requirement of June 17, 2005, the Examiner states that the four inventions in the present application are distinct and can be classified separately and require different modes of operation. Therefore, the Examiner states the four inventions have acquired a separate status in the art and therefore, they are restrictable. Applicants traverse the Restriction Requirement asserted by the Examiner in the present application.

As clearly set forth in the second paragraph of Section 803 of the MPEP, the Examiner must examine an application on the merits if the examination of the entire application can be made without serious burden. The restriction is proper where two criteria are present:

1. The inventions must be independent or distinct as claimed; and
2. There must be a serious burden on the Examiner if the restriction is not required.

Applicants respectfully submit that considering all of the claims of four distinct inventions in a single application is not a serious burden on the Examiner. A review of the subject matter set forth in the claims shows that they are substantially related. Therefore, the Applicants respectfully submit that a Restriction Requirement is improper and request that the requirement be withdrawn.

Serial No. 09/933,567

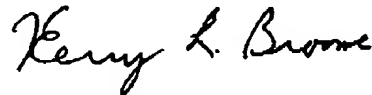

But in order to be responsive to the requirement, Applicants have elected, WITH TRAVERSE, the Group I to be examined in the present application. The Examiner is respectfully requested to reconsider his Restriction Requirement and act on all of the claims in the present application. If the Examiner does persist in his restriction requirement, Applicant reserves the right to file a petition and/or to file a divisional application directed to the Group II, III, and IV claims at a later date if they so desire.

### CONCLUSION

The foregoing is submitted as a full and complete response to the Office Action mailed on June 17, 2005. The Applicants and the undersigned thank Examiner Robinson for the consideration of these remarks. The Applicants have submitted remarks to traverse the restriction requirement. Examination of all the claims of record is hereby courteously solicited.

If the Examiner believes that there are any issues that can be resolved by telephone conference, or that there are any formalities that can be corrected by an Examiner's Amendment, please contact the undersigned in the Atlanta Metropolitan Area at (404) 572-4647.

Respectfully submitted,

Kerry L. Broome
